Re: Approved Landscape and Aesthetics Community Match Projects
EA No. 73009

Dear Ms. Mooney:

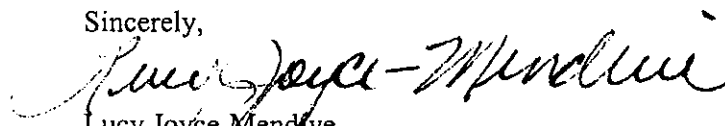

The Landscape and Aesthetics Community Match Program approved by the Nevada Department of Transportation for funding during the Federal Fiscal Year 2005 are shown in the attached document. As a result of this approval, these projects have been included within the Nevada Statewide Transportation Improvement Program (STIP) presented to the Transportation Board in October.

This notice of project funding approval does not authorize you to begin your projects now. Applicants must first contact the NDOT to finalize the application process. Your agency has submitted the initial Pre-Application Forms 1-4. If you have not submitted the Supplemental Forms 5 and 6, these need to be completed and submitted in order to begin the project agreement process. Following the successful execution of a Project Agreement and a Long Term Maintenance Agreement, a Notice to Proceed will be issued. Any costs associated with work on a project by the applicant prior to a written Notice to Proceed from NDOT will not be reimbursed to the applicant.

If your project is not included on the attached list, you are encouraged to reapply for funding during the next application period scheduled to begin November 30, 2005, and closing March 31, 2006.

If you have any questions in regard to the approved project-funding list for FY 2005 or the Landscape and Aesthetics Community Match Program, please call me at (775) 888-7537 or email me at lmendive@dot.state.nv.us.

Sincerely,

Lucy Joyce-Mendive
Senior Landscape Architect
